Miss Mary Anne Freeland
for: Theodor H. Nelson
Senior Staff Researcher
Harcourt, Brace & World, Inc.
757 Third Avenue
New York, 17, New York

December 15, 1966

Dear Miss Freeland:

The No. 8175 Magna-Tuner, list price \$369.50, is
available at the following music dealer:

Albert Weatherly Flutes
74 West 47th Street
New York, New York 10036

Enclosed is some literature on the Magna-Tuner.
Certainly the above dealer would be more than
happy to order one for you.

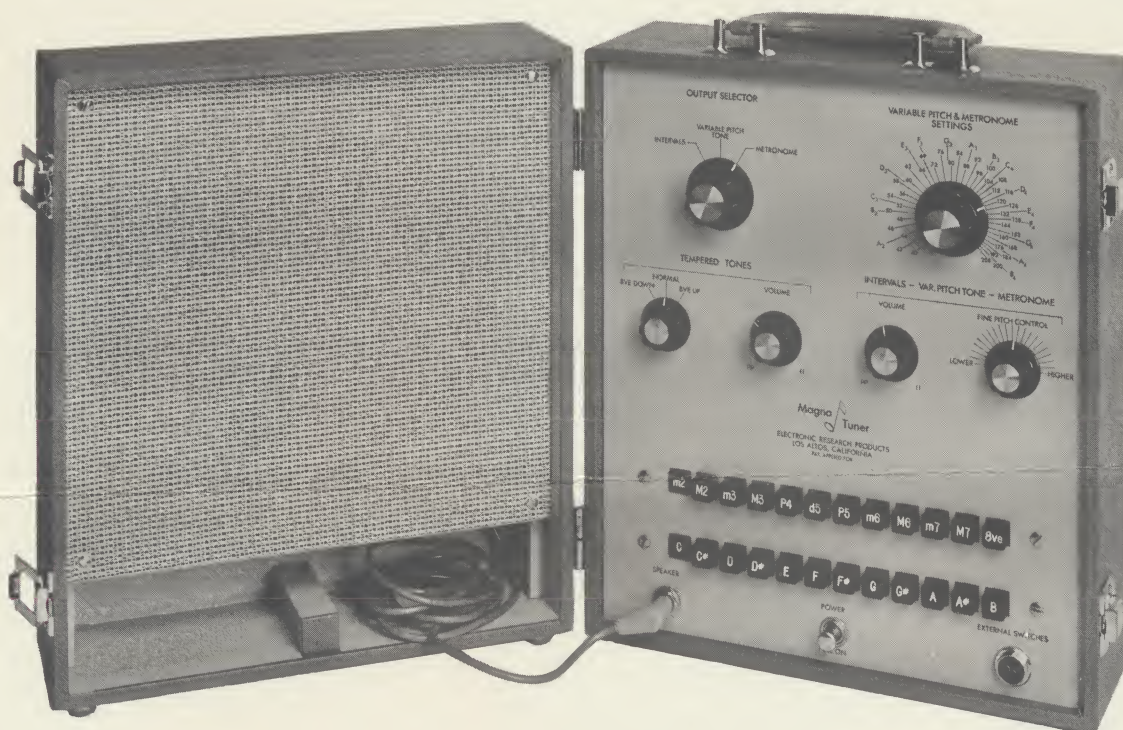

Cordially yours,

DGThompson:eb

Product Coordinator

THE MAGNA-TUNER A Complete Portable Music Laboratory

- For tuning all instruments
- For teaching intonation
- For tuning orchestras, bands, and choruses
- For musical aptitude tests

THE MAGNA-TUNER PROVIDES:

- 156 different fixed tones and 144 intervals all selected by pushbutton. Includes all twelve equally tempered tones over a three octave range from C₃ (130.8 cps) to B₅ (987.8 cps), accurately set to a reference of A₄=440.0 cps (or higher if you wish) and selected by pushbuttons.
- Provision for sounding two tones simultaneously so that any interval relative to any tempered tone can be selected by pushbuttons.
- Fine tuning of the second tone to give equally tempered or just intervals.
- A metronome which can be used alone or simultaneously with any of the tempered tones.
- Separate on-off switches and volume controls for each tone or metronome channel.
- Large loudspeaker built into removable cover and an output jack for connecting external speakers and amplifiers.
- Special output for external switches so tone or metronome signals can be remotely controlled with foot or hand switches.
- All of this in a fully portable, transistorized instrument only 7½ x 11 x 12½ inches and weighing less than 15 pounds.
